HOW TO SAVE MONEY!

When times are hard you'd like to know
How you can save your dollars;
The way to do it you will know
If you will read what follows:

A man obedient to the laws,
Who worked hard at his trade,
Could not supply his wants—because
It cost more than he made.

He met a friend: Says he, "I guess
I look thread-bare and rough;
I'd like to buy my wife a dress
But can't save up enough."

His friend replied, "It won't cost much
To buy your wife's dry goods
If you will go to the cheap store—
The store of Row & Woods."

He took what little he could save
To Row & Woods' store,
And bought his wife a handsome dress
For half one cost before.

With other goods, and Hats and Shoes,
Himself he there supplied
And still has money left to use
And some to lay aside.

P. S.—See annexed List of Prices. Other goods at like reduced rates.
Muslins from 10 to 22 cents.
Calicoes from 8 to 18 cents.
French Lawns from 18 to 30 cents.
Mozambiques from 25 to 28 cents.
Alpacas from 30 to 70 cents.
Delaines from 20 to 25 cents.

NEW WORK ON SINGING.
BASSINI'S
Twenty Melodic Exercises,
IN FORM OF
SOLFEGGIOS FOR SOPRANO OR MEZZO SOPRANO VOICES,
INTENDED AS
Studies to acquire the Art of Singing.
"These exercises were composed to be used simultaneously with his system, "THE ART OF SINGING," or with any *other method* for the cultivation of the voice, and will take the place of CONCONE'S SOLFEGGIOS; being more melodious and better adapted for teaching.
"Some of these exercises are specially beautiful as well as useful, a mingling of the *dulce et utile*, which secures the interest as well as the improvement of the student. The various styles developed in these exercises render them invaluable in an educational point of view, as they tend to enlarge the intelligence and the appreciation, and at the same time form the taste of the pupil. They must be studied carefully with reference to the innumerable marks of expression and forms of ornamentation. Upon the minute accuracy with which these are accomplished depends the actual sterling advancement of the pupil; any evasion or slurring in these respects is time and effort utterly wasted, while, on the other hand, a close and patient investigation, and a minutely faithful execution of them, will give unexpected power and facility, and open to the student the means and resources by which great artists produce their most brilliant and profound effects.—*Watson's Art Journal.*

The Star and Sentinel.

CHARITY BEGINS AT HOME.

Judge not another—look within;
There you will find enough of sin;
Weeds luxuriant, rank and wild,
Many a thought by sin defiled;
Many a fretful peevish feeling
O'er our better nature stealing,
Many a cold ungrateful look
Warm affection scarce can brook;
Many a harsh, unfeeling word,
Heart piercing as a sharpened sword.
Ah! look within, thou need'st not roam,
For charity begins at home.

Judge not another, for you'll find
In dark recesses of the mind,
Hidden by self-esteem from view,
Seen by others—not by you—
Follies that make you blush when seen
By the light of conscience's faithful beam.
Drag the intruders forth to light,
And judge them by that standard bright;
Banish the beam before they try
To force the mote from another's eye.
Ah! look within, thou need'st not roam,
For charity begins at home.

Judge not another—keep in mind
The golden rule for all mankind;
Whene'er you're tempted to expose
Another's follies, think of those
That lurk within; the wish repress
Your scorn of others to express.
Whene'er to ridicule inclined,
Ah, think how sensitive thy mind;
Perhaps that very moment, too,
Some one may be despising you.
Ah! look within, thou need'st not roam,
For charity begins at home.

Judge not another—keep in mind
The judgment that ye to others mete
Shall be returned to you complete,
Cease then all judging till you find
No trace of error in thy mind;
Then will ye never judge again
For error ye shall still retain;
Till all your pulses cease to beat,
With error ye'll be found replete.
Ah! look within, thou need'st not roam,
For charity begins at home.

WHAT THE MINUTES SAY.

"We are but minutes, little things,
Each one furnished with sixty wings,
With which we fly on our unseen track,
And not a minute ever comes back.

"We are but minutes; each one bears
A little burden of joys and cares;
Take patiently the minutes of pain,
The worst of minutes cannot remain.

"We are but minutes; when we bring
A few of the drops from pleasure's spring,
Taste their sweetness while yet we stay,
It takes but a minute to fly away.

"We are but minutes, use us well,
For how we are used we must one day tell;
Who uses minutes has hours to use,
Who losses minutes whole years must lose."

GOD'S ARROWS.

"The simple reading of a copy of the Scriptures, purchased of Francesco Madiai, by the captain of a small vessel trading from Elba, and by him taken to the island, has been blessed to the conversion, first of the purchaser, then of one and another of his neighbors, until a small evangelical community sprang up amidst the darkness."

This little paragraph, cut from a week's ordinary column of foreign intelligence, gives a modern example of the gracious results that have often followed one of God's arrows shot "at adventure" by one of His faithful servants. Such instances of Gospel triumph have always marked the course of Christianity since the white-horse rider went forth, the arrows of whose bow fly swiftly, surely, widely, here, there, and yonder; though it is not always *seen* where they fall, the slightest turn of the bow shifting widely the scene of conquest.

An arrow from this bow, shot direct from the Lord Himself, entered the heart of Saul of Tarsus, and he became one of Christ's most expert and indefatigable bowmen, sending forth the arrows of God's Word, thick and fast, throughout Syria, Asia, Minor, Greece, and Italy. And since his day, by indirect means of the most varied character, special servants of the Lord have been called and endowed with grace and power to draw arrows from the divine quiver and pierce "the heart of the King's enemies," till, at the voice of Waldo, or Wycliffe, or Luther, Waldensian vales, and English meads, and German towns resounded with the joy and gladness of people saved of the Lord.

And so it is in our own day. By methods of His own, the Lord separates to do His work men whom the world, and sometimes even the Church, have not chosen; men with or without training, rich men and poor men; learned and unlearned; and even women, for not only our sons but our daughters are beginning to prophecy, and some mothers of families are proving themselves to be mothers in our Christian tribes. And all these are dexterous in the use of the Gospel bow.

When God raised up Luther and Calvin, Knox and Latimer, He raised up many helpers with them. Wesley and Whitefield, in taking to the highways and hedges, found many prepared of the Lord to receive them and bid them God speed. The great revival in which President Edwards bore a conspicuous part, as it proceeded, drew to itself the materials for its own sustentation and success. And so it has always been. God's arrows from the mouths of His servants have silently but surely penetrated multitudes of hearts, and brought them under the Gospel yoke, enlisting them as Christ's soldiers, and sending forth no inconsiderable number of them as expert Gospel bowmen.

These are obvious reflections, but useful to impress upon the mind a right sense of the ever-acting presence and energy of God's Holy Spirit in the world, and particularly in connection with the labors of devoted, self-denying men and women, who go forth in the name of the Lord, "to save poor souls out of the fires."—*Christian Times.*

ENDURING INFLUENCE.—Time, change, absence, distance, break off no genuine relations. The love which the interposition of a continent or an ocean can dim, which the separation of years can alter, never was love. I had a friend once, a woman, who was the friend of my better nature—who taught me inspiration, taught me the value of thought, made me believe the worth of life, showed me the joy of worth and progress—one whose soul was so large, so deep, so generous, that she reigned like a queen among the highest intellects and hearts. She left the earth one stormy night sixteen years ago; but is as near me today as she was then. The life I live, the thoughts I think, the acts I perform, are colored by influences which came from her mind to mine. If sixteen years cannot separate souls, why should sixteen hundred years separate them? When our friends leave us for another world, they are less with us outwardly, but more with us inwardly. We carry them with us in our heart.

THE BEAUTIES OF BIBLE LANGUAGE.

If we need higher illustrations not only of the power of natural objects to adorn language and gratify taste, but proof that here we find the highest conceivable beauty, we would appeal at once to the Bible. Those most opposed to its teachings have acknowledged the beauty of its language, and this is due mainly to the exquisited use of natural objects for illustration. It does indeed draw from every field. But when the emotional nature was to be appealed to the reference was at once to natural objects, and throughout all its books, the stars, and flowers, and gems, are prominent as illustrations of the beauties of religion and the glories of the church.

"The wilderness and the solitary place shall be glad for them, and the desert shall rejoice and blossom as the rose."

"The mountains and the hills shall break forth before you in singing, and all the trees of the field shall clap their hands. Instead of the thorn shall come up the fig tree, and instead of the briar shall come up the myrtle tree."

The power and beauty of the same objects appear in the Saviour's teachings. The fig and the olive, the sparrow and the lily of the field, give peculiar force and beauty to the great truths they were used to illustrate.

The Bible throughout is remarkable in this respect. It is a collection of books written by authors far removed from each other in time, and place, and mental culture, but throughout the whole nature is exalted as a revelation of God. Its beauty and sublimity are appealed to to arouse the emotions and reach the moral and religious nature. This element of unity runs through all the books where reference to nature can be made. One of the adaptations of the Bible to the nature of man is found in the sublime and perfect representation of the natural world, by which nature is ever made to proclaim the character and perfection of God. No language can be written that so perfectly sets forth the grand and terrible in nature and its forces, as we hear when God answers Job out of the whirlwind. No higher appreciation of the beautiful, and of God as the author of beauty, was ever expressed than when our Saviour said of the lilies of the field "I say unto you that even Solomon, in all his glory, was not arrayed like one of these;" and then adds: "If God so clothe the grass of the field"—ascribing the element of beauty in every leaf and opening bud to the Creator's skill and power.—*Prof. Chadbourne.*

AN ITEM WHICH EVERY MAN SHOULD READ.—We have probably all of us met with instances in which a word, heedlessly spoken against the reputation of a female, has been magnified by malicious minds until the cloud has been dark enough to overshadow her whole existence. To those who are accustomed, not necessarily from bad motives, but from thoughtlessness, to speak lightly of ladies, we recommend these "hints" as worthy of consideration:

Never use a lady's name in an improper place, at any improper time, or in a mixed company. Never make assertions about her that you think untrue, or allusions that you feel she herself would blush to hear. When you meet with men who do not scruple to make use of woman's name in a reckless and unprincipled manner, shun them, for they are the very worst members of the community—men lost to every sense of honor, every feeling of humanity.

Many a good and worthy woman's character has been forever ruined and her heart broken by a lie manufactured by some villian, and repeated where it should not have been, and in the presence of those whose little judgment could not deter them from circulating the foul and bragging report. A slander is soon propagated, and the smallest thing derogatory to a woman's character will fly on the wings of the wind, and magnify as it circulates, until its monstrous weight crushes the poor unconscious victim. Respect the name of woman, for your mother and sisters are women, and as you would have their fair name untarnished, and their lives unembittered by the slander's bitter tongue, heed the ill that your own words may bring upon the mother, the sister, or the wife of some fellow-creature.

KINDNESS TO ANIMALS.—Professor Youatt gives the following interesting fact in one of his valuable works:

"A horse in the depot at Woolwich had proved so unmanagable to the rough-riders, that at length no one among them durst even mount him. His mode of throwing or dismounting his rider consisted in lying down and rolling over him, or else crushing his leg against some wall, or post, or paling. All means to break him of these perilous tricks proving unavailing, the animal was brought before the commanding officer with the character of being "*incurably vicious,*" and with a recommendation, on that account, that he should be sold. Colonel Quest, bearing of this, and knowing the horse to be thoroughly-bred and one of the best-actioned and cleverest horses in the regiment, besought the commanding officer to permit him to be transferred into the riding troops. This was consented to, and the transfer was no sooner accomplished than Colonel Quest determined to pursue a system of management directly opposite to that which had been already attempted.—He had him led daily into the riding school, suffered no whips even to be shown to him while there, but petted him and tried to make him execute this and the other manœuvre, and as often as he proved obedient rewarded him with a handful of corn, or beans, or a piece of bread, with which bribes his pockets were invariably well supplied. In this manner, and in no great distance of time, was the rebel not only subdued and tamed, but rendered so perfectly quiet that a little child could ride him. He became, at length, taught to kneel down while his rider mounted, and to perform several evolutions and dances and tricks in the *menage,* which no other horse in the school could be brought to do. In fine, so great a favorite did he become, that his master gave him the appellation of 'The Darling.'"

THE GREAT CHANGE.—There was a man who started from Jerusalem to Damascus, on a mission of persecution and murder, proud, cruel and vindictive; he came from Damascus with a heart yearning toward all mankind, with the humility of a child, and with affection as tender as a woman's love. He went towards Damascus with an intellect narrowed down to a rapier's point, and harder than its steel; he came from Damascus with an intellect broadened and fused with divine fire, and with a logic so invincible, and with its links so warm with the Holy Ghost, that it moulded the thought of the world for eighteen centuries.

DR. BROWNE having long admired a very beautiful young lady, made a point of always giving her for his toast. Being once told it was time to change it, he replied, "I believe it is; for though I have been, toasting her for these twenty years, I have not been able to make her Brown yet."

THE TIN MINES IN MISSOURI.—The St. Louis *Times* gives some account of the recently reported deposits of tin in Missouri. Several thousand acres of land have recently been entered in Madison and Iron counties, upon which the owners hope to find tin—lands which have heretofore been considered as almost worthless because of their hilly, rocky character, and their remoteness from river and railroad communication. These lands have been entered and purchased by parties respectively from Detroit, St. Louis, Chicago, Wheeling and Pittsburg, about in the order named as to quantity, U. K. Booth, of Detroit, taking the lead. The St. Louis parties have three Cornwall miners at work exploring with very favorable results.

The "tin fever" has assumed a contagious form, and everybody has the "attack."—Farms which could not have been bought a week ago for $10 or $15 an acre, are now eagerly snapped up at $100 to $300 per acre; and if the investigation now being made results satisfactorily, some land we know of could not be purchased for $1,000 per acre.—The Ironton *Register* says:

"Cornwall's glory has departed. The United States are no longer dependent upon the Old World for their sauce-pans; for in Southern Missouri there is tin enough to supply her kitchen a million years.

"Our people are fairly wild about tin. One half the population own tin mines, and the other half are trying to own some. Everybody has a piece of tin ore in his pocket, and there is scarcely a blacksmith shop in the country where ladies and pans have not been coated with it.

"Our towns are full of jauntily dressed individuals, who, having made fortunes in the eastern oil regions and other land speculations, are here looking after tin. Blow-pipes protrude from pockets as frequently as 'bowies' do in Arkansas. Farmers plow up green colored rock and unhitch the team, for they have found tin. Discussions on theological and political subjects merge into tin. Everything is tin. Men drink tin. Men dream of tin.—There has been a tin wedding."

CHANGE OF TUNE.—An Irishman employed in a shop in New York was one day surprised and delighted by the entrance of an old acquaintance. After ten minutes' jollification, the friend left, when Pat's employer said to him:

"So, Pat, you knew that person in the old country, did you?"

"Och, an sure did I; an' it's a lucky day I met with him here. It's a fine boy he is, wid all his family. His grandfather was a general—his father was a general—and he'd been a general hisself if he not come away.

"But what was he after in your pockets? I thought I saw him put his fingers there rather slyly."

Clapping his hands to his pocket, Pat ascertained that both watch and purse were missing. "Murther!" he cried, gesticulating like a whale with a dozen harpoons in his side; "the thafe! the spalpeen! I knew him well wid all his family. His grandfather was hanged—and his father was hanged—and he'd been hanged hisself if he had not run away!"

DIDN'T KNOW IT WAS SO BEAUTIFUL.—A wealthy man of Boston, who owns a country residence in the suburbs of the city, recently became dissatisfied with it, determined to have another, and instructed an auctioneer, famous for descriptive powers, to advertise it in the papers at private sale, but to conceal the location, telling purchasers to apply at his office. In a few days the gentlemen happened upon the advertisement, was pleased with the account of the place, showed it to his wife, and the two concluded it was just what they wanted and that they would secure it at once.—So he went to the office of the auctioneer and told him that the place he had advertised was such a one as he desired, and he would purchase it. The auctioneer burst into a laugh and told him that that was the description of his own house, where he was then living.—He read the advertisement again, pondering over the "grassy slopes," "beautiful vistas," "smooth lawn," etc., and broke out: "Is it possible? Well, auctioneer, make out my bill for advertising and and expenses, for, my George! I wouldn't sell the place now for three times what it cost me!"

A BARBER PUZZLED.—Three brothers, bearing a remarkable resemblance to one another, are in the habit of shaving at the same barber shop. Not long ago one of the brothers entered the barber shop early in the morning, and was duly shaved by a German who had only been at work for a day or two. About noon another brother came in and underwent a similar operation at the hands of the same barber. In the evening the third brother made his appearance, when the German dropped his razor in antonishment and exclaimed, "Vell, mine Gott! dat man hash de fashtest beard I never saw! I shaves him dis morning, shaves him at dinner times, and he gomes back now, mit his beard so long as it ever vash."

PRINTING BOTH SIDES.—A poor lame boy asked a gentleman for a long string. "What for?" he asked. The boy said, "he would make a net of it, which he could sell for threepence, to print Bibles for the poor heathen;" adding, "you know, sir, that many print one page." The gentleman told him to bring the net to him when finished. He did so; threepence was given him for the Bible and threepence for himself. "No, sir," exclaimed this poor boy, "please send it all; perhaps then it will pay for printing both sides."

OUR Wilkesbarre friend, Walker, went to a dutch tailor and had his measure taken for a pair of pantaloons. He gave directions to have them made large and *full.* Walker is a heavy man and likes his clothes loose, and when he came to try on the new unmentionables found that they stuck tight to his legs, whereat he thus remonstrated: "I told you to make these pants *full.*" After some objurgatory expressions of a profane nature, the tailor ended the controversy by declaring, "I dink dese pants is full enough; if dey was any *füller* dey would *sphlit.*"

ON one occasion a gentleman was relating a painful story of a little boy who was called from his play to go to a neighbor's for some milk. As he was returning from his errand the cars ran over him, killing him instantly.—The gentleman was very pathetic, and at the close of his narrative there was a dead silence in the room, broken at last by one of the ladies of the company asking gravely, "and what became of the milk?"

IN a school recently a teacher took occasion to relate an anecdote of the little girl who tried to "overcome evil with good," by giving a new Testament to a boy who had ill-treated her. The story was appreciated, for a few minutes afterwards one boy struck another and being asked the reason said he was "trying to get a Testament." This was a practical bearing altogether unexpected.

A YANKEE boasting of a visit that he had paid to the Queen, clinched his remarks by declaring, "I should have been invited to stay to dinner, but it was washing day."

THE MIDNIGHT SUN IN NORWAY.

A letter on Norway, written by W. W. Thomas, late U. S. Consul at Gothenburg, Sweden, describes that far northern country and one of its peculiar phenomena:

Imagine a huge table-land, rising 3,000 to 6,000 feet sheer above the sea—one vast rock, in fact, bleak and barren, covered with snow, swept with rain, frozen in water, sodden in summer—the home of a few reindeer and Lapps, and you have Norway proper, nine-tenths of the Norway that is shown on the map.

But the rock is not whole; it is cracked apart here and there, and the fissures show like slender veins over the country. The sides of these ravines are steep as the cleft left by an axe, and their depths are always filled by a foaming brook or river tumbling along from the drenched table-land above the sea.—I have looked from the bottom of one of these valleys, and seen the perpendicular rock rise 5,000 feet on either side, and heaven show like a strip of blue ribbon. Where ever in these dales there lies a bit of earth 'twixt [illegible] and river, there the Norwegian peasant has built his cot; and it is on such bits of earth that inhabited Norway is situated, and here lives its 1,200,000 people. The land just round his door gives the Norwegian potatoes, rye, barley and oats; his cattle climb the steeps above for every stray blade; for the rest he depends upon the sea and river.—Were it not for the excellent fisheries along this northern shore, Norway would be uninhabitable.

One night in July, 1865, Hon. J. H. Campbell, late Minister at Stockholm, the two Messrs. Buckley, of Birmingham, and myself, landed on the shore of a northern fiord in latitude 60 degrees north. We ascended a cliff which rose about 1,000 feet above the sea.—It was late, but still sunlight. The Arctic ocean stretched away in silent vastness at our feet. The sound of its waves scarcely reached our airy look-out. Away in the north the huge old sun swung low along the horizon, like the slow beat of the pendulum in the tall clock in our grandfather's parlor corner. We all stood silent, looking at our watches.—When both hands came together at 12, midnight, the full round orb hung triumphantly above the wave—a bridge of gold running due north spanned the waters between us and him. There he shone in silent majesty which knew no setting. We involuntarily took off our hats; no word was said. Combine, if you can, the most brilliant sunset and sunrise you ever saw, and its beauties will pale before the most gorgeous coloring which now lit up ocean, heaven and mountain. In half an hour the sun had swung up perceptibly on its beat, the colors changed to those of the morning, a fresh breeze rippled over the fiord, one songster after another piped up in the grove behind us—we had slid into another day.

SOUND MADE VISIBLE.—At the Royal Institution in London recently, according to the London *Lancet,* Professor Tyndall repeated some of the interesting experiments by which he has, on previous occasions, giving ocular proof of the effects of sonorous vibrations.—When a jet of gas is burning under an amount of pressure which is but just short of the "flaring" point, it becomes excessively sensitive to a momentary increase of pressure, and will respond in the readiest manner to the slightest acute sound, vibrating actively to the merest "chirrup" of the lips. A still more remarkable demonstration was made with a thin column of smoke, of which the shadow was cast on a screen by means of an electric light; here the smoke became so sensitive that the slightest vibration or the air affected it, and two tuning-forks, making a discord, produced the well-known beat, which was attended by a marked pulsation of the edges of the shadow. Perhaps the most beautiful ocular demonstration of the effect of sound was produced by throwing the electric light through a minute stream of flowing water, the effect being to produce a string of glittering drops of the most beautiful appearance. When musical notes were sounded in that vicinity, these drops altered their arrangement in obedience to the waves of sound, and clearly, indicated, by their modified appearance, the effect produced upon them.

HOSPITALITY AMONG LIONS.—"I have been assured," says Chenier in his "Present State of Morocco," "that a Brebe who went out to hunt the lion, having proceeded far into a forest, happened to meet with two lion's whelps that came to caress him. The hunter stopped with the little animals, and, waiting for the coming of the sire or the dam, took out his breakfast and gave them a part. The lioness arrived unperceived by the huntsman, so that he had not time, or perhaps wanted the courage, to take to his gun. After having for some time looked at the man who was thus feasting her young, the lioness went away, and soon after returnd, bearing a sheep, which she came and laid at the huntsman's feet.—The Brebe, thus become one of the family, took this occasion of making a good meal, skinned the sheep, made a fire and roasted a part, giving the entrails to the young. The lion came also; and, as if respecting the rights of hospitality, showed no tokens of ferocity. Their guest the next day having finished his provisions, returned, and came to the resolution never more to kill those animals, the noble generosity of which he had so fully proved. He caressed the whelps at taking leave of them, and the dam and sire accompanied him till he was safely out of the forest."

ANTINOMIANISM.—Rowland Hill, though kind in his feelings, was sometimes exceeding keen and severe in his rebukes. A strong Antinomian once called on him, to take him to task for preaching on the duties of the gospel. "Do you, sir," said Mr. H., abruptly, "hold the ten commandments to be the rule of the Christian's life?" "Certainly not," said the visitor. Quickly as possible Mr. Hill rang the bell, and on the servant's making his appearance, he quietly added, "John, show that man to the door, and keep your eye on him till he is beyond the reach of every article of wearing apparel, or other property in the hall."

REMARKABLE TREE.—In the birch wood of Culloden, Scotland, there is a remarkable tree, well worthy of note. About thirty years ago a young giant of the forest was blown down, and fell across a deep gully or ravine, which it completely spanned, and the top branches took root on the other side. From the parent stem no less than fifty trees have grown up perpendicularly, all in a row; and they still flourish in their splendor, while the parent stem evinces no token of decay. Several of the trees are not less than thirty feet high. The tree is a birch fir.

A CLERGYMAN who enjoys the substantial benefits of a fine farm, was slightly taken down a few days ago by his Irish plowman, who was sitting at his plow in a tobacco field, resting his horse. The reverend gentleman being an economist said, with great seriousness:

"John, wouldn't it be a good plan for you to have a stub scythe here and be cutting a few bushes along the fence while the horse is at resting a short time."

John, with quite as serious a countenance as the divine wore himself, said:

"Wouldn't it be well, sir, for you to have a tub of potatoes in the pulpit, and when they are singing, to peel em awhile to be ready for the pot."

The reverend gentleman laughed heartily, and left.

BOYS, READ THIS.—Hold on to your tongue when you are just ready to swear, lie, speak harshly, or use any improper word.

The Star & Sentinel.

Wednesday, August 21, 1867.

For Judge of the Supreme Court,
HON. HENRY W. WILLIAMS,
OF ALLEGHENY COUNTY.

REPUBLICAN COUNTY CONVENTION.

THE Republicans of Adams county, and all who have been acting with them in their efforts to put down the Rebellion, and who in weal and woe have rallied around the flag—all who desire to unite with them in sustaining Congress in its patriotic efforts to reconstruct the Union on a sound basis, and in opposing the dangerous policy of a treacherous Executive—are requested to assemble at their usual places of holding Delegate Elections, on SATURDAY, AUGUST 31, 1867, to select TWO Delegates from each District to represent them in County Convention, to be held in the Court-house, in Gettysburg, on MONDAY, SEPTEMBER 2, 1867, at 10 o'clock, A. M., to nominate a County Ticket to be supported at the October Election, and to transact such other business as may come before the Convention.

☞ The time for holding the Delegate Elections in all the Districts will be between the hours of 4 and 7 o'clock, P. M., except in the Boroughs of Gettysburg, Littlestown and Berwick, and Huntington township, where they will be held between the hours of 7 and 9 o'clock, P. M.

By order of the County Committee,
EDWARD McPHERSON, Ch'n.
CHARLES HORNER, Sec'y.

IN OUR NEW OFFICE.

We have the satisfaction of announcing to our readers that we have at length got comfortably fixed in our new office, specially built at a heavy expense for our accommodation. We now claim to have a Printing office unsurpassed by any in the State, in systematic arrangement, and capacity for general work. With a large Campbell Power Press, two first-rate Hand Presses, and a full and complete assortment of Job Type of all kinds, we are prepared to execute Job Work of all descriptions, from large Posters to the smallest Cards, including Addresses, Pamphlets, &c., as neatly and cheaply as the same class of work can be done in any office in the State. Our friends, as they come to town are invited to give us a call.

Our heavily increased circulation—being largely in excess of that ever reached by any newspaper in the county, and exceeded by few papers in the State—makes our advertising colums a desirable and almost indispensable medium for Business men, Executors, Administrators, and others who desire to reach the public in connection with sales of Real Estate and business generally. The STAR AND SENTINEL is read weekly by not less than ten thousand persons in Adams and adjoining counties. As advertising pays the advertiser just in proportion to the number of persons reached, business men will at once see the importance of availing themselves of our advertising columns.

The Improvements and increased facilities thus introduced in our office have necessarily devolved on us a heavy outlay of money. We have cheerfully incurred this large expenditure in our desire to furnish a first-class family journal, and meet the wants of this community. Nor shall we spare additional expense in the future fully to meet every reasonable demand upon the office. We acknowledge our indebtedness to those friends who have manifested their appreciation of our efforts by prompt pre-payment of their subscriptions, and shall be glad to receive a similar recognition from our subscribers generally.

Quite a number of new names have been added to our list during the last two months. A little effort on the part of each subscriber would largely increase our subscription list, enable us to improve the paper, and promote the circulation of sound Republican principles. An important campaign is pending, and the most effective mode of impressing the public mind, is the extensive circulation of home papers. Go to work, friends.—In another column will be found a liberal offer of Premiums to all who desire to engage in the good work.

THE *National Intelligencer*—which under its new ownership is the leading Democratic paper in Washington City—in its arraignment of Congress on the 23 inst., bitterly denounces that body for its passage of the "Soldiers' Bounty bill," which it characterizes as a "profligate operation," and as having been passed under "profligate influences," &c.

The Administration have always been secretly hostile to the bill, and have enforced it so feebly that, at its late session, Congress raised a Committee to look into it.

The Soldiers of the Union would have a sorry time of it, if the control of Congress was in the hands of the men whose hearts were with the enemy throughout the War.

APPEARANCES indicate that Western Democrats are in favor of the nomination of Hon. GEORGE H. PENDLETON of Ohio, for the Presidency. He has recently been to Minnesota, and made an elaborate political speech.

THE Tennessee election has inflamed ANDREW JOHNSON, as a red cloth does a bull. It is said he now intends to remodel his Cabinet, in the interest of the Democratic Party, to which he belongs, and with which he is in full sympathy.

THE Democratic State Committee think Judge SHARSWOOD ought to be elected because he is a Pennsylvanian by birth. We think he ought to be beaten, because he is a South Carolinian in his opinions.

THE rebellious press of Richmond are rejoicing over Mr. STANTON's suspension. They would have removed him *during the war*, if they could; for they hated, because they feared him.

SHARSWOOD vs. JACKSON.

The opinions of Judge SHARSWOOD as to the nature of our Government, the rights of the States, and the powers of the Union, stamp him as a disciple of JOHN C. CALHOUN. This is proved as well by his speech in April, 1834, on Nullification, as by his Notes on Blackstone's Commentaries, all of which are pervaded by the same dangerous theories.

In one sentence, his judgment, as deliberately expressed by himself, is:

"EACH STATE HAS THE RIGHT TO JUDGE FOR ITSELF OF THE INFRACTIONS OF THE COMPACT, AND TO CHOOSE FOR ITSELF THE MOST PROPER AND EFFICIENT REMEDIES."

Every man who may vote for him, will sanction this utterance. If Judge SHARSWOOD should be elected, he could fairly hold that this Opinion had been endorsed by the people. And if he should make his judicial judgments conform thereto, he could fairly shield himself behind the approving vote of the people.

We will not argue this point. We never believed in the right of a State to nullify a law of Congress, or to secede from the Union. We do not now. But Judge SHARSWOOD is on *record, in his own words, in favor of both those propositions!* No man can deny that.

On the other hand, read what ANDREW JACKSON said on this point. We quote from his Proclamation of December 10, 1832:

"I consider, then, the power to annul a law of the United States, assumed by one State, INCOMPATIBLE WITH THE EXISTENCE OF THE UNION, CONTRADICTED EXPRESSLY BY THE LETTER OF THE CONSTITUTION, UNAUTHORIZED BY ITS SPIRIT, INCONSISTENT WITH EVERY PRINCIPLE IN WHICH IT WAS FOUNDED, AND DESTRUCTIVE OF THE GREAT OBJECT FOR WHICH IT WAS FORMED."

SHARSWOOD's sentiment is the essence of Disunion, and Anarchy; JACKSON's, of Union, and Order. Let the people judge.

BENJAMIN G. HARRIS, an avowed sympathizer with the Rebellion, who represented the Fifth District of Maryland in the Thirty-Eighth and Thirty-Ninth Congresses, has recently written a letter on general politics, which contains some statements of value.

He was elected a Democrat in the fall of 1863, and was one of seventy Democratic members of the House. He thus comments on the action and views of his Democratic colleagues:

"While in their hearts they did not wish the success of the North in their *nefarious* and *unjustifiable* war upon the South, they yet discovered wonderful policy in *pretending* to wish it. They shrieked for the Union—made the strongest war speeches, while they whispered to the knowing ones of their party that deception was the surest means of getting power, and when power was obtained, then—they would do the expedient."

We put this statement on record, as boldly made by a living man, a member of the last Democratic National Convention, and a conspicuous member of the Democracy of Maryland, who is among those named for the next nomination for Governor.

He convicts of the grossest hypocrisy and dishonesty, his Democratic colleagues in Congress; and squarely charges them with not wishing to see the South conquered, with pretending to be for the War and the Union, and yet admitting that they were engaged in a stupendous conspiracy to deceive the people—promising secretly that, *when they got in power*, they would act in harmony with their real feelings.

The People could not be induced to trust the men who had betrayed them but a few years before; and these shameless gamesters never got power. As a result, the South was conquered; Slavery was killed and buried; the dignity and rights of the Union were asserted and vindicated; and HARRIS whines over his calamities, and tells how faithless and truthless were the Democratic Representatives in the Thirty-Eighth Congress.

THE party of re-action in the South are straining every nerve to thwart the Congressional plan, and thus indefinitely postpone Reconstruction. Of this party, BENJAMIN H. HILL, of Georgia, a lately pardoned Rebel Senator, BENJAMIN F. PERRY of South Carolina, and ROBERT TOOMBS of Georgia, are great lights.

That our people may understand the arguments used, we quote the following paragraph from the last letter of Governor Perry:

"Let us remain as we are, under a temporary military government, and wait for a re-action at the North. The Conservative party North are as much opposed to the oppressions and tyranny which have been imposed on the Southern States as we are ourselves. They are daily gaining strength, and will be soon in a majority, and then our deliverance will come."

Whoever therefore votes with the "Conservative," or Democratic Party (for they are the same), will cast a vote against Reconstruction, and will strengthen the hands of the leading Rebels of the South who hear in the adoption of the Congressional plan, their death-knell.

It is complained, that the present military government of the South is expensive. PERRY and his friends wish it indefinitely continued till a "Northern re-action" comes, which cannot possibly be for several years, if at all.

Vote as you feel.

THE great ignorance which is a marked characteristic of the Southern States, is illustrated by the fact that of 631 white voters in the most intelligent county of Arkansas, 174, or more than one-fourth can not write.

The cause of this is, no Slave State has ever had a system of Common Schools. The poor had no opportunities of education. The ruling class were able to educate their children at private schools, or by private teachers, and were unwilling to be taxed for a general system of schools. And all this disregard of duty, and denial of facilities for education to the poor of the State, were done in the name of Democracy!

We are glad to see that, in every Southern State, the Republicans have pledged themselves to a system of Common Schools. An educated youth are the glory and the strength of a State. Let the South make haste to wipe out the stain of shame. And let the North do more to banish ignorance, and extend the blessings of education, and elevate the position and enlarge the privileges of Labor. Let us have, or hear, in South or North, no more of a sham Democracy.

The PRESIDENT appears to have been satisfied he had no power to *remove*. He accordingly *suspended* Mr. STANTON.—The law on that point, and the consequences involved, we stated last week.

JUDGE SHARSWOOD ON LEGAL TENDERS.

Extract from His Opinions in the Cases of Borie vs. Trott, and Marvine vs. Sailor.

"On the whole, then, I am of opinion that the provision of the act of Congress of February 25th, 1862, declaring the notes issued in pursuance of that act to be lawful money, *and a legal tender*, IS UNCONSTITUTIONAL.

"This renders it unnecessary that I should consider the other question which has been made, as to the effect of the special agreement to pay in lawful silver money of the United States. I am in favor of entering judgment for the plaintiff, but as a majority of the court are of a different opinion, judgment for the defendant."—*Copied from the Philadelphia Age of 23d of February*, 1864, where the opinion is published in full. It may also be found in the *Legal Intelligencer* of March 18, 1864, page 92.

In Judge SHARSWOOD's dissenting Opinion in the case of MARVINE *vs.* SAILOR (published in the *Legal Intelligencer* of May 6, 1864), he went further, and denied the right of Congress *to issue* Treasury Notes, much less make them a "legal tender" in the payment of debts.—His language is:

"I am of opinion that Congress had no Constitutional power to invest the Secretary of the Treasury with authority to issue bills of credit intended to circulate as money—much less to make them a lawful tender."

The Philadelphia *Age* of 23d February, 1864, publishing the Opinion in BORIE *vs.* TROTT, highly eulogizes the Judge, saying:

"Judge SHARSWOOD reasons upon and decides the case as if he were some lofty spirit sitting far above and out of the contentions and strifes of the world."

Will not the holders of greenbacks and Government bonds consider the Judge as quite too elevated and ethereal for such earthly honors as a seat on the Supreme Bench?

A QUESTION has been raised as to the power of President JOHNSON to remove Secretary STANTON. This is clearly settled in the following paragraph from the Chicago *Tribune*:

"The law provides:

'That the Secretaries of State, of the Treasury, of War, of the Navy, and of the Interior, the Postmaster General, and the Attorney General, shall hold their offices respectively for and during *the term of the President by whom they may have been appointed*, or for one month thereafter, subject to removal by and with the advice and consent of the Senate.'

"Any opinion Mr. Senator SHERMAN may have expressed during the debate on the bill, has no bearing as against the language of the law itself. Messrs. SEWARD, WELLES and STANTON were appointed by Mr. LINCOLN, whose 'term' commenced March 4, 1865, and will end March 3, 1869. Mr. JOHNSON himself is merely serving out the unexpired portion of the term of Mr. LINCOLN.—The law fixes that term, as the term of the Cabinet officers; and the President, by law, is prohibited from the removal of either one, unless by and with the advice and consent of the Senate. That disposes of the question of the power of removal."

Two years ago all the Democratic papers were loudly in favor of prompt Reconstruction, in the interest of peace, of industry, and prosperity. Congress is about to restore these States on a loyal basis; and the active efforts of the Democratic politicians, North and South, are now exerted to vote down Conventions in the disloyal States, and thus prevent the taking of the first and indispensable step, viz: making a State Constitution.

The reason is, the Southern States are pretty sure to come back Free, Republican States! This was not in the programme. Hence, the change of policy.

The Republicans have always been in favor of *loyal* and early Reconstruction. They broke down the PRESIDENT's plan because it restored the rebel leaders to power, and put down the Union men of the South. They have substituted a plan of their own, which reverses this position. They will carry it out, notwithstanding all obstacles; and the country will yet find peace in the complete acceptance of the Congressional plan.

IN Kentucky, it is considered a dishonor to have been in the Union army; while it is such a merit to have been in the Rebel army, that two of its Colonels were considered worthy of election the other day, to important State offices by the Secession Democracy. And it is *such* a victory the Democratic newspapers of the North are now rejoicing over. In confirmation of our statement respecting public sentiment in that State, we ask attention to this paragraph:

The Paris *True Kentuckian* of June 8th, contained a significant card from Dr. W. J. TALBOTT, of Centreville, Ky., who said: "As I am informed through reliable sources that it is reported in this community that I was with the Federal army during the war, I wish to pin the lie to it by making a public denial through your paper; for I was not associated with that army in any capacity during the war, and defy any one to prove the contrary. I am only anxious to deny the reports because I know that they were promulgated by some maliciously disposed person or persons, with a view of prejudicing the public against me."

Evidently, Kentucky needs "reconstructing" very badly. It is very natural that in a community so devoted to the "lost cause," the Republican party should be in a minority.

THE passage of a Reform bill in England, by which every householder, and most of the renters have become voters, deserves to be marked as an event of great significance. It will work a revolution in the politics of that Nation, and ultimately in the Government of it. It is the first great fruit in Europe, of our conquest of the Rebellion. Thus, a saved and regenerated America is to become the power for regenerating Europe and opening an Era which will be conspicuous for its amelioration of the political condition of mankind. Every day, it becomes plainer that the Rebellion was a gigantic crime against human Liberty everywhere; and that its authors and abettors were the enemies of all mankind.

SANFORD CONOVER, *alias* Charles A. Dunham, recently convicted in Washington of perjury before the Military Commission which tried the assassins of President LINCOLN, is applying to President JOHNSON for a pardon; and has prepared a statement trying to implicate Hon. JAS. M. ASHLEY and Gen. BUTLER in an attempt to manufacture testimony looking to the impeachment of the PRESIDENT. Granting all his statements, he makes out no case against either of the gentlemen; but the person who would believe one word that SANFORD CONOVER would utter, write, or swear to, must be very gullible. He is a convicted perjurer, and covered all over with crime.

WHO ARE DESERTERS?

Congress, at the late session, passed this important bill, which has become a law, having been approved on the 19th of July last:

Be it enacted, &c., That no soldier or sailor shall be taken or held to be a deserter from the army or navy who faithfully served according to his enlistment until the 19th day of April, 1865, and who without proper authority or leave first obtained, did quit his command, or refuse to serve after said date; but nothing herein contained shall operate as a remission of any forfeiture incurred by any such soldier or sailor of his pay, bounty or pension, or other allowances, but this act shall be construed solely as a removal of any disability such soldier or sailor may have incurred by the loss of his citizenship in consequence of his desertion.

Where parties marked "deserters," can prove that they left the army under the circumstances described in this act, they will be hereafter entitled to the elective franchise.

HON. JESSE D. BRIGHT, then of Indiana, was expelled from the U. S. Senate in the spring of 1862 for having given "aid and comfort" to the enemy. He has since removed to Kentucky, and, at the late election, was chosen to the State Senate by the Democracy of Carroll and Trimble counties. He made a speech in Carrollton, on the 3d of August, of which a synopsis is as follows:

"He started off by saying he had always been a States Rights Democrat. He denounced Mr. LINCOLN, DOUGLAS and ANDY JOHNSON in the most bitter terms; said that the Democratic Senators from the South did wrong in vacating their seats at the beginning of the war; said Mr. LINCOLN had no power under the Constitution to call out any troops; was opposed to paying the public debt; that Kentucky ought not to pay another dollar until her Representatives were admitted, and that if the South ever regained her rights it would be by the sword; and said if that was treason, the Government might make the most of it; was in favor of returning every slave to his original master; was in favor of a law in Kentucky that every one who lost anything in Kentucky during the war, or by the war, should be paid, and that the General Government should refund it to Kentucky; was in favor of Gen. W. O. BUTLER (who was present) for the next President; said that the national laws were not to conflict with the State laws, but were only auxiliary to them."

The first and the last remarks prove that he and SHARSWOOD are in full political sympathy. The views expressed in the body of the speech, are undoubtedly Kentucky and Maryland Democracy.—Let the people beware lest by nurturing such men they encourage such opinions, and make another war necessary to complete the work of the last.

THE Berks county Republicans have "given no uncertain sound." At their recent county meeting they resolved that "it is absolutely and indispensably necessary for the Republican party to maintain a majority in Congress, and to elect a President and Vice President, *whose past life, whose public record, whose open and public declarations in support of radical Republican principles and measures*, and whose *sobriety, political and moral honesty*, can be trusted in and relied upon as a guaranty against subsequent desertion of friends, apostacy to principle, and treason to country and humanity, to succeed the present accidental incumbent."

The Republican Party owes it to itself and its principles to elect, as the next President, a DISTINCTIVE REPUBLICAN, one who has a RECORD, who has been TRIED and has proved FAITHFUL, and upon whom the voters can RELY as true to their convictions and purposes.

The Party cannot afford to run the risk of another betrayal. And it dare not outrage the confidence of the country as in 1864, when it threw overboard a tried and true man, and nominated ANDREW JOHNSON who never even called himself a Republican! The history of that act of shame need not now be written; but the result of it should remain a monument of folly, and a warning against the recurrence of like injustice and impolicy.

THE Berks county Democrats recently resolved "that this Union is composed of separate, equal, *sovereign* States, and that no right, or shadow of right exists, under the Constitution for Congress to hold *sovereign* States as subjugated provinces under military rule," &c.

This is the *language* of Secession, whatever be the meaning they give to it.

This claim of Sovereignty in the States, if true, justifies Secession, and proves the Rebellion to have been the exercise of a rightful power by dissatisfied States.—We suppose, this is what the Berks county Democrats meant to say. Their hearts and hopes were always with the Rebels, and are now.

Had the Rebel armies whipped the Union armies, the Rebel States would have been an independent power, by virtue of the verdict of force. As the Union armies defeated the Rebel, the Rebel States are not an independent power, but are subject to the will of the conquering power, which is the Congress of the Union—and this, by virtue of the same verdict of force to which both parties appealed for the settlement of the conflicting claims.

Nothing can be plainer than this; but Berks county Democrats are wholly unable to see it. Their love of Slavery, their sympathy with the Rebellion, and their hatred of progress in the direction of Enlightenment and Liberty, blind their eyes, and pervert their judgment.

THE Harrisburg *Telegraph* makes a sharp point on Hon. WILLIAM A. WALLACE, Chairman of the Democratic State Committee. It states that he procured a negro to go into the army as his substitute; and it argues that it is indecent in him to abuse the race, one member of which had the courage to stand between him and the bullets of a common enemy. The *Telegraph* thinks if Mr. WALLACE considered a colored man good enough to be his military substitute in war, he ought to consider him good enough to be his political equal in peace.

THE State Teachers' Association of Pennsylvania, at its annual session held at Bellefonte, last week, elected the following officers for the ensuing year:

A GERMAN named John Haeffler, recently buried his thirty-third child, and was the father of thirty-seven children. Haeffler was married three times. His first marriage took place in Germany when he was twenty one years of age. At four successive accouchments, triplets; twice twins, and the last a single birth. Shortly after the latter event the wife died. He was again married, and the issue of the second wife was fifteen children—seven times twins and the eighth a single child. This wife also died shortly after the last birth. His third and present wife has thus far presented him with five children, one at a birth. The sex of the children were nineteen boys and eighteen girls, only four of whom are now living. Haeffler is now fifty-two years of age, of medium size and of hardy, vigorous constitution. In some sections of Germany a premium is awarded married people who produce a certain number of children. Haeffler lived in that section and was the recipient of one hundred guilders previous to leaving. He apparently labors under the impression that a similar reward awaits him in this country.

He was an industrious and worthy man and leaves a wife and three children.

RECONSTRUCTION ITEMS.

GEN. Howard, it is said, will soon be mustered out of service, by the PRESIDENT's order.

THE Mayor of Mobile, and Judge H. W. Thomas, of Alexandria, have been held to bail, to answer the charge of violating the Civil Rights bill.

THE two citizens of Columbia, S. C., who recently assaulted two Northern men who were attending the Republican State Convention, were convicted before a Court-martial, and have been sent to Fort Macon for six months' imprisonment.

GENERAL SHERIDAN has removed Judge EDWARD DOUGHERTY, of Texas, for denying the supremacy of the laws of Congress, openly denouncing the Government of the United States, and stating that he would not obey the laws of Congress when they conflicted with the laws of Texas.

PRESIDENT JOHNSON has directed General GRANT to issue an order, putting General THOMAS in SHERIDAN's place; General HANCOCK in General THOMAS's, and Gen. SHERIDAN in Gen. HANCOCK's. Meanwhile Gen. SHERIDAN has issued an order directing the election of members of a State Convention on the 27th and 28th of this month, in Louisiana.

IN Rutland, Georgia, the colored people—men, women, and children—were holding a prayer meeting in a bush arbor on Sunday night of week before last, and the congregation had scarcely risen from their knees when they were fired into by a party of seven—or rather some seven shots were fired—which wounded fourteen or fifteen men and women, some of them severely. This is a type of the character of outrages occurring all over the South.

IN Charleston, Gen. SICKLES has issued an order in relation to certain monies advanced by South Carolina Banks during the war for the purchase of horses for the Confederate service, but which not being expended, had been distributed since the war under a chancery decree, among the banks and other claimants. The order annuls the decree, as a fraud against the United States, and appoints a receiver on the part of the Government, to whom the funds distributed, including costs and fees of counsel, are to be repaid.

THE necessity for the laws protecting the freedmen was never more strongly illustrated than in the case of the brothers WYTHROW, near Lebanon, Ky. A colored girl, aged 16, for a trivial offense, of which she was not guilty, was dragged out into the woods, tied up by the neck to a limb, and whipped unmercifully with green withes. Fortunately, these barbarians have been arrested and bound over in $5000 bail, to answer at the District Court. Had they been brought before Kentucky magistrates, it is probable that very trivial, if any bail would be required. These vindictive assaults are very common in Kentucky—no less than sixteen arrests for the same offense having been made within the last two weeks.

SEVERAL weeks ago, we published an account of the murder of a Mr. STAUFFER, of Natchitoches, Louisiana, by thee brothers named JONES—one a judge, one a physician, and the third a planter. The murder was committed for political purposes. The planter Jones fled to Texas, where he now is, but the other two brothers were, with some difficulty, arrested, and the jail at Natchitoches being insecure, were taken to New Orleans and imprisoned in the military jail. Last week Dr. Jones died in the prison, and on Saturday night Judge Jones, who had been attacked with cholera while in the jail, was removed to the house of a relative, but died before morning. The military authorities in Texas have been directed to keep a bright look-out for the third assassin, and if he is caught the murdered man will be tolerably well avenged.

P. S.—He has since been caught.

GEN. POPE has addressed an important letter to Gen. GRANT, enclosing a speech made by Hon. B. H. Hill, late a Senator in the Confederate Congress, recently pardoned by the PRESIDENT and who represents a large class. Gen. POPE says this speech shows the hopelessness of any satisfactory reconstruction while such men retain influence. Gen. POPE thinks they should be silenced, and says it is better that the battle should be fought now. Congress did well by disfranchising the leaders, but Gen. POPE thinks it would have been better to have banished them, and he is opposed to relieving the disfranchised classes of their disabilities. He says it is his duty to state that, in his judgment, the condition of affairs in the Southern States, even should reconstruction be satisfactorily accomplished, will, of necessity, be a reproduction in a more or less modified degree of what now exists in Tennessee, unless some measures are adopted to free the country of the turbulent and disloyal leaders of the reactionary party. Whilst these persons remain in the country to exercise the baleful influence they undoubtedly possess, there can be no peace.

THE cholera is spreading in Italy.

THE population of Baltimore is nearly 300,000—of whom 44,000 are colored.

LOPEZ, the Mexican who betrayed Maximilian, was recently assassinated at Puebla.

NICARAGUA is about conferring a gold medal upon Juarez as a testimonial of esteem and gratitude for his services in behalf of republicanism in America.

QUEEN VICTORIA's annual income is $1,870,000, with a capital of not far from $9,000,000. Prince Albert died worth five millions, all which he gave to the Queen.

A BORDER STATE Convention has been called for September 12th, in Baltimore, in the interest of Universal Suffrage.

THE privilege of converting seven-thirty notes falling due on the 15th inst., into five-twenty bonds bearing date the 1st day of July, 1867, has been extended to the 15th day of September next.

THERE is an Organization in the Southern States, to secure the repeal of the Cotton Tax. The best way to accomplish this purpose, is to complete reconstruction rapidly, and get their representatives into Congress. Sullen or open defiance of the lawful authority of Congress, will hardly help their case.

GAME LAWS.—Last week we copied an article which we found in our exchanges, purporting to be the Game Law as passed last winter. We have since examined the Legislative Record of last session, and find that while a new Act regulating the killing of Game passed the Senate, it does not seem to have been reached in the House. The old Game Law is therefore still in force.

☞ Jupiter will appear without his Satellites on the 21st of this month, this evening, if astronomical predictions be true. This is a phenomenon very seldom observed, and, reckoning backward, has been recorded in 1843, in 1826, in 1802, and in 1781. The disappearance of these Satellites is caused by their passage across the disc of Jupiter. They will appear during six hours, on the evening of August 21st, beginning when the planet rises at half-past seven, and ending at fifty-four minutes past one.

HEAVY RAINS.—One of the heaviest rain-storms we have had in many years, visited this region on Wednesday, Thursday and Friday of last week. The streams were very high, and for several hours many were impassable. The railroad running into Baltimore were much damaged. The damage in in Philadelphia by the flood, is estimated at $100,000. The entire fall of rain by the late storm was nearly six inches, which exceeds the entire amount of any previous August for years.

FIRES.—On Tuesday evening last, the barn of ADAM SHORB, near Mount Rock, was struck with lightning and consumed. It was nearly new. PRESENTATON.—On Thursday evening, Aug. 9th, Prof. MUHLENBERG was presented with a very fine copy of Longfellow's Translation of Dante's *Divina Comedia*, by the Class of '69 of Pennsylvania College, as a parting token of love and respect. The Class went to the Professor's house in procession, and the volumes were presented by Mr. E. S. He then bade them farewell, taking the hand of each one.

☞ THE WASHINGTON LIBRARY COMPANY of Philadelphia gains credit and support every day. The sales of stock surpass all expectation, and the prospect is, that the funds for the noble object will be secured even in advance of the time anticipated. The reason is obvious. The design is worthy, and creditable to the patriotic hearts who are laboring to reward a too much neglected class.—The funds go into responsible hands, and the public have no fears that they will be misdirected. The plan adopted satisfies the scruples of the most conscientious, and has the endorsement of eminent legal authority. It is by its distinctive features entirely removed from the taint of catch-penny schemes which have so often been the means of imposing on the public. It gives to purchasers of its stock a full equivalent for the consideration paid. All its transactions are open and above board. It has no concealments, and the reputation of the managers is such that they *cannot afford* to be dishonest in this transaction. Read advertisement. It

ADAMS COUNTY TEMPERANCE CONVENTION.—Pursuant to call, the delegates of the different churches and Temperance organizations met on Wednesday, Aug. 14, at 2 o'clock, P. M., in the M. E. Church, Gettysburg.

The meeting was called to order by Rev. G. D. CHENOWITH, Corresponding Secretary of the Pennsylvania State Temperance Union, and Rev. G. W. BOUSE appointed temporary Chairman, and J. A. CLUTZ, Secretary.

After some appropriate remarks by the Chairman, the meeting was opened with prayer by Rev. G. D. CHENOWITH, after which delegates and others were requested to hand in their names. Twenty names were reported.

Rev. G. D. CHENOWITH then made a short statement of the rise and progress of the State Temperance Union, and of the object of this Convention.

A committee of five were appointed to nominate permanent officers for the County organization; and also a business committee of three to report a constitution and resolutions for the Convention, to whom all resolutions were to be referred without debate.

The President appointed Messrs. R. G. McCREARY, A. W. FLEMMING, J. M. WARNER, C. J. VANDERSLOOT and ADAM WERT, as committee on officers, and Rev. G. D. CHENOWITH, Dr. J. L. HILL and D. A. BUEHLER, Esq., as committee on business.

The chairman of the business committee reported the following constitution, which was adopted:

[*The Constitution will appear next week.*]

EVENING SESSION.

Rev. G. D. CHENOWITH opened with prayer. The names of those present, who were not present in the afternoon, were reported, numbering twenty.

The following gentlemen were unanimously elected officers of the Association:

President—R. G. McCREARY, Esq.; Vice Presidents—Rev. J. A. BROWN, D. D., SOLOMON POWERS; Secretary—J. H. WERT; Treasurer, J. L. SCHICK.

The business committee reported the following resolutions, which were adopted:

Resolved, That as Intemperance with all its combined influences now presents one of the most gigantic forms of evil known in our country, and as human skill is insufficient to surmount these influences and remove the curse, we therefore reverently implore the Divine Wisdom to guide our councils and his blessing on our efforts in accomplishing the work.

2. That we deem it of the first importance that the rising generation be carefully guarded against the evils of Intemperance; and we earnestly recommend that the subject be brought before the superintendents and teachers of our Sabbath Schools, with the request that they co-operate with us in securing the pledges of the children under their charge to total abstinence.

3. That the managers of this County organization are hereby requested, and it is their duty to encourage and hold public meetings in their respective townships, through their Pastors, Sabbath Schools, churches, &c., and to call out speakers for such occasions, and present the total abstinence pledge for signers; and that each township report quarterly to the president of the County organization the number of meetings held and the names enrolled.

4. That as the diffusion of light and intelligence is essential in every moral reform, we recommend to all the "*Leader*," published by J. H. KEATLY, Hollidaysburg, Pa., "*Monthly Circular*," published at Lancaster, Pa., "*National Temperance Advocate*," and "*Youths' Temperance Banner*," published by J. STEARN, No. 172 William street, New York, and the "*Temperance Banner*," published at Selin's Grove, Pa., as an efficient means of prosecuting the work.

5. That to the traffic in intoxicating drinks may be traced a large portion of the drunkenness, pauperism, insanity, crime and casualties of the country; and that against these evils, as a civil right, the people should be protected by wholesome legislation; and that as a license gives freedom and apparent respectability to the traffic, and denies the proper protection to the people, therefore, it is the right and duty of the citizens of this Commonwealth in self-defence, by legislation and all suitable means, to bring such traffic to an end.

6. That the licensing of acknowledged evils is wrong in morals and ruinous in legislation, and that a good law is a potent instrument to create a good public sentiment, and a bad law corrupts and depraves it; and that we can never give our consent to a system which shall give the legal sanction of the State to the traffic in intoxicating drinks—a business so ruinous to the best interests of the people—and that *prohibition* is the only safe legislation that can be enforced in practice.

7. That in the opinion of this Convention it is inconsistent with the obligations voluntarily assumed by professors of Christianity, or members of any Temperance organization to manufacture, sell or use intoxicating drinks as a beverage, or sign an application for a license, or rent their property to retail such liquors, or in any way give countenance to the traffic.

8. That we request all political parties to nominate good, well-tried Temperance men for civil office.

9. That as the pulpit is a potent instrument in this country in creating and sustaining a purified public sentiment, we therefore, respectfully request the pastors of this County to preach on the subject of Temperance in their respective congregations on the third Sabbath in September, or at their earliest convenience.

On motion, it was

Resolved, That the proceedings of the Convention be published in the County papers.

The Convention adjourned, with the Benediction by Rev. G. D. CHENOWITH, to meet *Saturday, Oct.* 19, at 10 o'clock, A. M.

WISTAR'S BALSAM OF WILD CHERRY.

Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsy, and the numerous as well as dangerous diseases of the *Throat, Chest* and *Lungs*, prevail in our changeable climate at all seasons of the year; few are fortunate enough to escape their baneful influence. How important then to have at hand a certain antidote to all these complaints. Experience proves that this exists in *Wistar's Balsam* to an extent not found in any other remedy: however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease and restores the sufferer to wonted health.

MR. JOHN BUNTO,
OF BALDWIN, CHEMUNG COUNTY, N. Y.—writes:

"I was urged by a neighbor to get one bottle of the Balsam for my wife, being assured by him that in case it did not produce good effects, he would pay for the bottle himself. On the strength of such practical evidence of its merits, I procured a bottle. My wife at this time was so low with what the physicians termed SEATED CONSUMPTION as to be unable to raise herself from the bed, coughing constantly and raising more or less blood. I commenced giving the Balsam as directed, and was so much pleased with its operation that I obtained another bottle, and continued giving it. Before this bottle was entirely used, she ceased coughing and was strong enough to sit up.—The fifth bottle entirely RESTORED HER TO HEALTH, doing that which several Physicians had tried to do but had failed."

NO. 3.
DR. SCHENCK'S PULMONIC SYRUP.

This great medicine cured Dr. J. H. SCHENCK, the Proprietor, of Pulmonary Consumption, when it had assumed its most formidable aspect, and when speedy death appeared to be inevitable. His physicians pronounced his case incurable, when he commenced the use of this simple but powerful remedy. His health was restored in a very short time, and no return of the disease has been apprehended, for all the symptoms quickly disappeared, and his present weight is more than two hundred pounds.

Since his recovery, he has devoted his attention exclusively to the cure of Consumption, and the diseases which are usually complicated with it, and the cures effected by his medicines have been very numerous and truly wonderful. Dr. Schenck makes professional visits to several of the larger cities weekly, where he has a large concourse of patients, and it is truly astonishing to see poor consumptives that have to be lifted out of their carriages and in a few months healthy, robust persons. DR. SCHENCK'S PULMONIC SYRUP, SEAWEED TONIC, AND MANDRAKE PILLS are generally all required in curing Consumption. Full directions accompany each, so that any one can take them without seeing Dr. Schenck, but when it is convenient it is best to see him. He gives advice free, but for a thorough examination with his Respirometer his fee is three dollars.

Please observe, when purchasing, that the two likenesses of the Doctor—one when in the last stage of Consumption, and the other as he now is, in perfect—are on the Government stamp.

Sold by all Druggists and Dealers. Price $1.50 per bottle, or $7.50 the halfdozen. Letters for advice should always be directed to Dr. Schenck's Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

OFFICIAL—PARIS EXPOSITION, 1867.—Advices just received by mail enable us to announce positively that the *only gold medal* for American sewing machines was awarded to Elias Howe, Jr., as the manufacturer of the best sewing machine that was exhibited. There were eighty-two different machines in competition for the prize, and Mr Howe received the additional award of the Cross of the Legion of Honor, as manufacturer and inventor.—The exact wording of the award is as follows:

HOWE MACHINE.	WHEELER & WILSON.
"Co-operateur Elias Howe, Jr., promoteur de la machine a coudre. *Medaille d'or.*"	"Wheeler & Wilson, pour la machine a boutoniere.—*Medaille d'or.*"

The official list of those who were made Knights of the Legion of Honor, as published in the Paris papers, reads thus: "Mons. Elias Howe, Jr., *fabricant de machines a coudre, exposant*;" which, translated into English, reads: "Mr. Elias Howe, Jr., maker of sewing machines, exhibiting."

From this it will be seen that the medal awarded to Wheeler & Wilson was for a "Buttonhole Machine," *and not for the Sewing Machine.*

Each of these world-renowned machines bears the medallion head of Elias Howe, Jr., (trade mark,) without which none are genuine. Messrs. Sibley & Stoops, Agents, No. 922 Chestnut street, Philadelphia. [July 31.-4t

The underigned would inform the Agricultural public that he has purchased from the Patentee of this extraordinary machine, the Patent Right for the States of Pennsylvania and Maryland.

Brinkerhoff's Corn Sheller, Separator and Cleaner, is pronounced the best machine of the kind in this country. And in proof, it may be mentioned that the "Advisory Committee appointed to select Implements for exhibition at the Universal Exposition in Paris, in 1867, have selected this Sheller as the best in America," and at the request of J. C. Derby, U. S. Agent, a machine has been shipped to Paris for exhibition. One important feature in this machine is that it will shell ears large, small or crooked, perfectly clean, and separates the cob and chaff from the Corn ready for market.

The fact may also be stated that at the great trial of Agricultural Implements, at Auburn, N. Y., in July last, under the auspices of the New York State Agricultural Society, the Brinkerhoff Corn Sheller, Separator and Cleaner was reported by one of the most competent Committees as the best Corn Sheller out. They say, "We have carefully examined and thoroughly tested this machine, and have no hesitation in pronouncing it *the best Corn Sheller we ever saw.*" The report is signed by such men as John Stanton Gould, President N. Y. State Agricultural Society; B. P. Johnson, Secretary to same; Solon Robinson, Agricultural Editor N. Y. Tribune; S. Edward Todd, Agricultural Editor N. Y. Times.

From among many complimentary newspaper notices, the following, from the N. Y. *Observer,* is deemed sufficient:

"Among all the Hand Corn Shellers made in New York and Albany—and one single firm manufacturers more than 10,000 annually—not one can enter the circle with the Sheller just invented by J. Brinkerhoff, Auburn, New York. It shells, separates and cleanses, rapidly and easily, at one operation, as fast as the ears can be put in the hopper."

The undersigned is now prepared to dispose of COUNTY RIGHTS. He will have SHELLERS ready for sale in the course of a month's time.

BLOOD! BLOOD!! BLOOD!!!

PURIFY YOUR BLOOD.

MAIZE'S BLOOD PURIFYING AGENT.

An effectual remedy in curing: Scrofula, Salt Rheum, Tetter, Ulcers and Sores, Blothes, Pimples, Tumors, Boils, Pustules, General Debility, Dyspepsia, Loss of Appetite. Female Irregularities and Complaints, and, in general, all diseases having thier origin in an impure condition of the Blood, or a disordered state of the nervous system.

This medicine, the result of skillful and scientific combination, is a purely vegetable preparation, free from all injurious ingredients.

As its name indicates it renovates the Blood, purges out the corruptions that breed in it, restoring its healthy action and vitality, and striking at the very seat of disease eradicates every trace of it from the sytem, and gives bloom to the pallid cheek, and health and vigor to the frame. Many diseases and much suffering are directly traceable to the impurity of the blood, and it is of the greatest importance for all that the blood which courses through every part of the system carry no poison or corruption with it. To suffer with hideous sores, pimples and eruptions and other diseases arising from impurity of the blood is no longer necessary, as the Blood Purifying Agent is sure and safe in its effects. Mothers having children suffering from eruptions of any kind will find it especially effective. The Proprietor has many testimonials from Clergymen and leading citizens of the county where the medicine is prepared certifying to the wonderful cures effected by it.

HELMBOLD'S CONCENTRATED FLUID EXTRACT SARSAPARILLA

Eradicates Eruptive and Ulcerative Diseases of the Throat, Nose, Eyes, Eyelids, Scalp, and Skin,

Which so disfigure the appearance, Purging the evil effects of Mercury, and removing all taints, the remnants of Diseases, hereditary or otherwise, and is taken by Adults and Children with perfect Safety.

Two Tablespoonfulls of the Extract of Sarsaparilla, added to a pint of water, is equal to the Lisbon Diet Drink, and one bottle is equal to a gallon of the Syrup of Sarsaparilla, or the decoctions as usually made.

An Interesting Letter is published in the Medico-Chirurgical Review, on the subject of the Extract of Sarsaparilla, in certain effections by Benjamin Travers, F. R. S., etc. Speaking of those diseases, and diseases arising from the excess of mercury, he states that no remedy is equal to the Extract of Sarsaparilla; its power is extraordinary, more so than any other drug I am acquainted with. It is, in the strictest sense, a tonic with this invaluable attribute, that it is applicable to a state of the system so sunken, and yet so irritable as renders other substances of the tonic class unavailable or injurious.

THE GREAT CHOLERA PREVENTATIVE.

I. I. 1866. L.

THE GREAT Zingari Bitters.

THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr. S. Cheopsus, an eminent Egyptian physician.

He had long seen and felt the want of some remedy which would strike at the root of disease, and so prevent much of the suffering which the human family was then compelled to endure.

This great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was led to think and experiment; and after ten years' study and labor, he presented to his fellow-man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the following inscription—Dr. S. Cheopsus, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in several epidemics of cholera, both as a preventive and curative measure, and with such great success, that it has been introduced into nearly all the general hospitals of the old world.

The old saying that an ounce of prevention is worth a pound of cure, applies with marvellous force to cholera, and therefore any remedy that will protect us against this terrible disease should be freely and persistently used.

All pathologists now agree that the cholera poison acts on the system through the blood, and that any combination which acts on the excretory organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholera, but of nearly all other maladies, especially the different forms of fever.

The Zingari Bitters is just such a remedy as the above conditions require. It acts on the organs of excretion and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, so nicely concocted that every organ is acted upon and put in tone. Its taste is pleasant and its effects prompt and lasting.

Numerous cases of the following diseases have been cured by it: Cholera, Diarrhœa, Dysentery, Scrofula, Typhoid and Typhus Fever, Fever, Ague, Nervous Debility, Anaemia, Female Irregularities. Dyspepsia, Flatulency, Colic, &c.

Price One Dollar per quart Bottle.

NO MORE BALD HEADS! NO MORE GRAY LOCKS!

DR. LEON'S ELECTRIC HAIR RENEWER.

IS pronounced by all who have used it the very best preparation for the Hair. It is a positive cure for Baldness, eradicates Dandruff and Humors, stops the hair from falling out, and speedily restores Gray Locks to their original hue and luxuriance.

It operates on the secretions, and fills the glands with new life and coloring matter. Thin, dead, faded or gray hair will always be brought back by a few applications, to its youthful abundance, vitality and color.

It makes the hair soft, glossy, fragrant, pleasant to the touch and easy to arrange. Dry, wiry, and intractable locks become moist, pliant, and disposed to remain in any desired position. As a hair dressing it has no equal. The sales are enormous, and it is a universal favorite with old and young of both sexes.
